WHAT DOES THE MARCONI BUSINESS NETWORK OFFER (MBN)?

The MBN is a networking group that provides a B2B platform for your organisation to showcase your business, engage with B2B prospects and develop professional relationships with other members of the Club.

The MBN was designed with a robust business-to-business focus and aims to leverage the Club's extensive business network, sponsors and commercial partners, coterie groups, government partners and influential community members.

The MBN offers the opportunity to facilitate targeted B2B introductions amongst members of Club Marconi to help drive new business opportunities and ultimately create a social opportunity to do business.

The MBN will hold regular social and networking events including lunches, dinners, after 5 events, annual golf day and race days and the opportunity to attend club sporting and charitable events to name a few.

Members will come from a range of business including but not limited to trades & building, corporate, legal, accounting/finance, property, health, tourism, automotive etc.
